Kanhaiya Yadav

+91 9262837151 kanhaiya.kumar.cs27@iilm.edu kanhaiya-yadav Kanhaiyadav01 LeetCode

Skills

Languages: Java, TypeScript, Python
Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Tailwind CSS
Databases: MongoDB, PostgreSQL, SQL, NoSQL,
Tools & Platforms: Git, GitHub, Docker, Postman, Vercel, AWS, OpenAI API
Concepts: Data Structures and Algorithms, OOP, Software Design, Concurrency, Multi-threading, System Design

Experience

ASTRAFASH LLP — June 2026 – August 2026

Full Stack Developer Intern — *Greater Noida, India*

- Built **50+ component React/TypeScript design system** (Next.js 14, Tailwind CSS) across atoms–templates; shipped **12 production dashboard pages** with real API integration, URL-param filtering, and all loading/empty/error states handled.
- Designed and built **20+ REST API endpoints** (Node.js, Express, PostgreSQL) with Zod validation; contributed to a **B2B SCM platform** on a pnpm/Turborepo monorepo – built shared `@scm/ui` library consumed by 2 Next.js 16 apps with authenticated, responsive app shells.

Kasper Infotech — June 2025 – August 2025

Frontend Developer Intern — *Greater Noida*

- Engineered **10+ reusable React.js components** with RESTful API integration; reduced page load time by ∼**30%** via code splitting and `React.memo` optimisation.

Projects

AI-Powered Resume Matcher | GitHub | Live | *React.js, Node.js, Express.js, MongoDB, OpenAI API, Jest*

- Built a **scalable distributed backend** with OpenAI API and **prompt engineering** for resume-JD evaluation; implemented **JWT auth**, optimized **MongoDB queries** (↓**35%**), and authored **automated tests** across **15+ endpoints** – cutting screening effort by ∼**50%**.

DayCraft – Productivity Workspace | GitHub | Live | *React, TypeScript, TanStack Start, Supabase, PostgreSQL, Tailwind CSS v4*

- Architected a **full-stack SSR application** with **PostgreSQL relational schema**, **JWT auth**, signup-free **Guest Mode**, and **interactive analytics dashboard** – built for **scalability and low-latency data access**.

DSA Spaced Repetition Tracker | GitHub | Live | *React.js, Firebase Auth, Firestore, Vercel*

- Engineered a **spaced repetition system** (3–120 day intervals) with **real-time Firestore listeners** across **100+ sessions**, **Google OAuth**, **user-specific data isolation**, and **offline persistence** – reducing missed sessions by ∼**60%**.

Achievements

Solved **500+ DSA problems** on LeetCode (**Rating: 1700**) & GeeksforGeeks – demonstrating strong **analytical and problem-solving skills**.

Contributing to **open-source** via **GSSoC 2026** across Java Spring Boot and MERN stack repositories – navigating large, ambiguous codebases **independently**.

Education

Institute of Integrated Learning in Management University — 2023 – 2027

Bachelor of Technology in Computer Science and Engineering — *Greater Noida*

- CGPA: **8.79** | Relevant Coursework: Data Structures, Algorithms, Operating Systems, Database Management, Computer Networks, Software Engineering, Object-Oriented Programming
